ASJ ITS is a Service Disabled Veteran Owned Small Business (SDVOSB), Economically Disadvantage Woman Owned Small Business and a Virginia Small Woman and Minority Owned Business (SWaM).

SYSTEMS ENGINEERING MID-ATLANTIC CONTRACTORS (S. E. M. A. C.)

Founded in 2012, Systems Engineering Mid-Atlantic Contractors is a Minority Veteran-Owned Small Business located in Virginia Beach, VA. Systems Engineering has assembled a highly qualified team of personnel with 76 years of extensive experience in US Navy combat C4ISR systems acquisition, engineering, logistics, installation support, and Systems Integration. Our business line is focused on delivering shipboard and shore-based waterfront services to the US Navy and Department of Defense.

We provide extensive expertise and capability in Naval Engineering relative to ship modernization and alteration, providing Alteration Installation Team (AIT) Support Services with logical expansion of our solutions and services to our Naval Customers.

Automation Precision Technology, LLC (APT, LLC)

APT, LLC is a SBA certified small business with a Secret Facility Clearance. Established in 1986 with a primary focus on Logistics, Logistics Integration, Information Technology, and Professional Services, APT has a long history of providing exceptional, best-value, and innovative logistical, training and workforce support and solutions to the United States Government and commercial customers. Recognized by the SBA as an 8a Graduate of the Year firm, APT continues to provide solutions that are customer focused, results-driven and cost competitive. Whether delivering logistical support services for the Department of Navy at Great Lakes, optimizing the effectiveness and efficiency of the DoD Supply Chain as a prime contractor for DoD EMALL,

or providing program and project management services for a prime contract in support of the Norfolk Navy Air Terminal, we deliver continued quality performance, agility, innovation and technical proficiency, at a low cost and with minimal risk.

SOCOM, an 8(a) and Service Disabled Veteran Owned Small Business (SDVOSB) firm, was formed in December 2004 to support the Information Technology (IT) and communications requirements of government and commercial organizations. Our mission is to provide advanced IT and communications services and solutions that enable our customers to achieve mission success. Serving our Navy, Air Force, and Department of State customers, we have provided support in the areas of Cyber Security and Information Assurance, Server and Systems Administration, Help Desk, and Telecommunications.

SOCOM is committed to excellence in providing proven, reliable IT services and solutions, ensuring that all projects and orders are delivered on-time and within budget. We combine lessons learned as well as industry standards to formulate plans that enable us to exceed expectations on every project. Our customers attest to the fact that we provide outstanding technical support and customer satisfaction in this ever changing world of IT.
